SUMMARY

B.Tech Information Technology graduate with hands-on experience in full-stack development and machine learning through industry internships and real-world projects. Skilled in building scalable web applications, developing machine learning solutions, and working with Python, Java, React.js, Node.js, and SQL. Passionate about solving complex problems and contributing to impactful software solutions.

EDUCATION

Prince Shri Venkateshwara Padmavathy Engineering College 2022 – 2026
B.Tech - Information Technology | CGPA: 7.2

INTERNSHIP

- Full Stack Developer Intern, Chennai Metro Rail Limited, Nandanam.** 09/25 – 10/25
- Developed an Attendance and Leave Management System using HTML, CSS, JavaScript, Node.js, Express.js, and SQL, automating employee record tracking and reducing manual efforts by 40%.
 - Implemented secure authentication, role-based access, and dynamic dashboards, enhancing data accuracy, scalability, and user experience.
- Machine Learning Intern, Vcodez Pvt. Ltd.** 04/25 – 06/25
- Built and optimized Machine Learning models using Python, Pandas, and scikit-learn, achieving up to 85% accuracy on real-world datasets such as email emotion analysis.
 - Streamlined data preprocessing and model evaluation processes, improving training efficiency and ensuring robust performance across multiple classification projects.

TECHNICAL SKILLS

Web Development: React.js, Bootstrap, Figma, Node.js, Express.js, REST API, MongoDB, MySQL

Machine Learning/AI: Pandas, Scikit-learn, NumPy, NLP, OpenCV, PuLP

Language : Python, Java

Tools : Git, GitHub, Linux (Basic), Power BI, Jupyter Notebook, VS Code

PROJECTS

- Cyber Security Debt Minimization System** 2026
- Developed a vulnerability management framework that combines Machine Learning and Hybrid Risk Analysis to identify and prioritize high-risk vulnerabilities.
 - Implemented optimized patch scheduling and security debt calculation using Python, Django, Scikit-learn, and PuLP, improving remediation planning and decision-making.
- NyayaMitra – AI Powered Legal Aid Platform** 2026
- Developed an AI-powered legal assistance platform for legal consultation, case filing, lawyer–client interaction, case tracking, private chat, PDF export, and location-based legal service discovery.
 - Built using Next.js, React, JavaScript, Gemini API, Web Speech API, HTML, CSS, Leaflet, OpenStreetMap, and JSON for AI-driven legal guidance, document drafting, and voice-enabled support.
- Attendance and Leave Management System** 2025
- Developed a full-stack web application for managing employee attendance and leave records using HTML, CSS, JavaScript, Node.js, Express.js, and SQL, ensuring efficient data storage and retrieval.
 - Implemented secure authentication, role-based access, and dynamic dashboards to streamline HR operations and enhance user experience.

CERTIFICATIONS AND ACHIEVEMENTS

- Design Thinking – A Primer (NPTEL)
- UI/UX Designing – ThisUX
- Patent Holder – Thermoelectric Generator for EVs
- Design, Technology & Innovation – NPTEL
- Applied Database System (ADSE) – IITM Pravartak
- Runner-up, **DIGINOVA'25** Corporate Web Design Event by **Trinitysoft Solutions** (UK)
